

WELCOME TO CLEAN AIR!

Danforth is excited to offer these Austin Air Systems Room Air Purifiers to our valued customers. Call us for preferred pricing.

Manufactured right here in Buffalo, NY, Austin Air units are perfect for residential and commercial air purification applications.

With medical grade HEPA filtration and various blends of carbon media, these units will remove harmful viruses, bacteria and allergens from your home along with nuisance odors from cooking, pets and household cleaners.

There are several models to choose from and several colors to suit your needs. Our full size unit can cover up to 1,500 sq. ft. and the junior units will cover 750 sq. ft.. Please take a look at the purifier options here to select the perfect unit for your home or office space.
